PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning with a strong interest in Product Management, Branding, Marketing, UI/UX Design, and Business Strategy. Passionate about creativity, technology, and solving real-world problems through user-focused solutions. Skilled in communication, collaboration, problem-solving, and creative thinking, with experience in website testing, branding, and campaign ideation. Seeking opportunities to learn, contribute, and grow in a dynamic and innovative organization.

EXPERIENCE

CoSurj

April 2025 – July 2025

Website Testing & Product Intern

Bengaluru, Karnataka

- Conducted website testing to identify UI/UX issues, functional bugs, and usability improvements across web applications.
- Collaborated with the team to improve website performance and enhance the overall user experience.
- Contributed creative branding ideas, campaign concepts, and feature naming to support product development.
- Provided detailed feedback and recommendations to improve website functionality, accessibility, and design consistency.

EDUCATION

RNS Institute of Technology (VTU)

2023 – 2027

Bachelor of Engineering (B.E.) in Computer Science Engineering (AI & ML)

Bengaluru, Karnataka

- CGPA: 8.00/10

SGN PU College

2020 – 2023

Pre-University Course (PCMB)

Kalaburagi, Karnataka

- Percentage: 86%

PROJECTS

Deep Learning Approach to Detecting Floating Plastics in Riverine Systems

- Developed an AI-powered solution to detect floating plastic waste in rivers through real-time video analysis.
- Integrated object detection, object tracking, and automated email alerts for efficient environmental monitoring.
- Improved the accuracy and speed of plastic waste detection while reducing the need for manual monitoring.

LLM-Based Research Paper Knowledge Graph Explorer

- Designed an AI-powered platform to simplify research paper exploration using Large Language Models (LLMs).
- Developed an interactive knowledge graph to visualize relationships between papers, authors, and research topics.
- Enhanced literature reviews by making research discovery faster and more organized.

SKILLS

Technical: Python, Java, SQL, C programming

Professional: Canva, Figma, Branding, Communication, Teamwork
